1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. Continuation of 4(e) Other: Additional and erroneous amendments are included with the claims set filed on 10/10/2008 that are not compliant with 37 CFR 1.121. Prior to claim 1, claim 96 and claim 110, the claim set includes the following: "method of detection coliform bacteria from reflected light general measurement and correlation/estimation method", page 4; "method of detecting E. coli. from reflected light general measurement and correlation/estimation method", page 13; and "measurement method followed by transmission to remote processing site", page 17. It is unclear whether this is an amended preamble to the instant claims, a title to the invention or titles to a subset of claims to indicate multiple inventions are incorporated in the instant claims. The claims are to be submitted in only the form prescribed by 37 CFR 1.121. Appropriate correction is required.
